"Farm and Family" will be a publication

cultural and educational circles in Kentucky and the South. Naturally the magazine will have those departments which are usually seen in rural magazines; but there will be others which have been generally overlooked. For instance, it will be the policy of "Farm and Family" to devote some space in each issue to the Rural School. There will be no effort to theorize or discuss the

school question from the teacher's viewpoint; but simply to learn where in the Southland there is a school that is really doing things that are of vital importance to the community and give the story to the readers.

The evolution of the Weekly Courier-Journal into "Farm and Family" is in accord with the progressive development of the times.

Twenty years ago the farmer de-

pended on his weekly edition of

the city daily for the news of the world.

But to-day he is not con-

tent to wait a week for his news

of the world any more than his

easy-going neighbors, recorded by

Josh Billings, is content to sit and

wait for the cow to back up to be

milked. Better roads, better trans-

portation facilities, rural free de-

livery, to say nothing of other

conditions which are revolution-

izing country life, have changed

all that. The modern farmer is

fast coming to demand his daily

newspaper, and the rapid extension

and improvement of the postal

service have made it possible to

justify that demand. Having his

daily newspaper he no longer

needs a political weekly, but he

does need a medium of informa-

tion and stimulation, more special-

ized than his daily can give him,

within the lines of his own voca-

tion and environment, thru which

he may keep abreast with all that

intelligent effort is doing in im-

proving agricultural methods and

results and bettering the social

conditions of rural life. He does

MEMBER OF
KENTUCKY PRESS ASSOCIATION

SOME of our country exchanges seem to think it their province to keep constantly before the public the fact that their paper is the organ of some particular party and thru their editorials and locals eternally attempting to drill it into the heads of their readers that all the honest and good men belong to their particular party and the dishonest and riff raff belong to the opposition. Now what good can such stuff do the people? It makes no friends or votes but engenders and promotes antagonisms and ill feelings among many friends and neighbors. While it is essential and necessary for two parties to exist, there is no need of indiscriminate abuse slurs and slings at the opposition. There are honest men in both the political parties and a man is no better by being identified with either, though his party may be benefited by his membership; if he be a true upright citizen; but the matter printed by some of the exchanges would lead its readers to believe otherwise, provided said matter was worthy of belief. One often sees such squibs as this in newspaper columns: "Uncle Billy Thickhead of Lonesome Pine was in town Monday. Uncle Billy is 86 years old and is yet lively as a cricket. He is a true blue, dyed in the wool—and never scratched a ticket in his life."

Then Uncle Billy must have voted for many "yellow dogs" during his long life. One must indeed feel sorry for the prejudice and ignorance bound up in such a man. Why always this flouting into the faces of your neighbors, the fact that you are a Republican or a Democrat? Does it do any good? Does it make everybody feel better? There's really mighty little politics in the country. Politics is a scientific school with many matriculated students but mighty few graduates and the one word covers a large portion of the minds of all; that word is "prejudice." If that hateful word could be eliminated much better feeling would prevail throughout our country. Much be done toward it if the exchanges mentioned would work toward that much desired condition by doing a lot of "eliminating" from their columns much of strife stirring articles which is not politics at all, but simply gush and rot and only serves the purpose of keeping up the spirits and prejudice of the "boys in the trenches" who are simply used as tools to push some office seeker into a position where he soon forgets the pushers (voters).

Why not cut out so much playing at politics? Give more space to schools, churches, farming stock raising, good roads and the pushing of Boone way. "On to Cumberland Gap."

IN many parts of the country a cloud of gloom is spread over the Christmas holiday season because of the large number of people who are murdered or wounded. Many people seem to think that Christmas is for the purpose of drinking whisky, carrying pistols or shooting or murdering somebody. A careful study and observation convinces one that these shootings are brought about by the two causes. The first cause is drinking; many people who, during the other months of the year seldom touch whisky, feel at liberty, in fact, think it a necessity to drink and make fools of themselves during the Christmas holidays.

These shootings and killings are brought about, in the second place, by the senseless and useless habit of carrying pistols on one's body for the mistaken purpose of self-defense or protection. It gets one into trouble in nine cases where it keeps one out of

trouble in one case. Cut out the whisky and pistols and there would be less trouble and some satisfaction in the land.

THE Christmas edition of the Barbourville Mountain Advocate is a splendid issue which Knox county citizens should feel proud of. It is chock full of good things and we can find but one oversight made by its manager—no word about Boone Way appeared in its columns—the thing nearest the hearts of Rockcastle citizens. The Lancaster Record has a new office, new press and outfit and is sending out a bigger better paper which has always been a good one.

A dispatch from Washington says Representative Caleb Powers, of Kentucky, introduced a bill which appropriates \$8,000 for a government survey looking toward the construction of a macadamized road from Crab Orchard to Cumberland Gap, to be called "The Boone Way."

If Caleb Powers will just keep his nose out of the Boone Way, the people particularly interested in the construction of the road will be much obliged. Every move he makes hurts the cause and his messing with the measure will be a hindrance to senators James and Bradley in getting such an appropriation. Powers can't get anything in Washington and it looks like he would have enough sense to know it.

Mr. E. S. Albright,
Mt. Vernon, Ky.

Dear Sir:

As the year is drawing to a close, the time of general settlement is here I will send you a long green to keep the Signal coming another year for I could not get along without it. I think it is like good whisky, grows better with age.

Our largest snow is falling to day. It has been a warm wet fall and no winter so far. We never have experienced so much rain here in the fall since this country has been settled.

There seems to be a change coming all around in this country. We are beginning to learn now to farm this vast domain of prairie table land, which have laid idle here for hundreds of years, only furnishing grazing for buffaloes in the earlier days, and for cattle and sheep in these latter days.

In 1906 the Santa Fe R. R. built a new road thru this cattle men's paradise and with it came the home seekers in large numbers and almost from every state and as would be natural almost all of them tried farming on the ranch plan, they had followed (back home) and with a few dry years there were a great many failures and a great many got discouraged as has been the case in all new settled countries and hit the hick back East. But there are those who have staid with their claims and by experimenting and trying out plans suggested by our experiment stations are raising fair crops with as small a rain fall as we had in first few years when crops were a failure.

Now the second bunch of home seekers are coming in buying up the land those others left behind and they are getting larger bodies together and putting in silos and adopting the cow as their partner and the hen as a good assistant. Every thing looks more favorable for Eastern New Mexico than it ever has before.

I can not close without wishing your Boone Way Boosters success, sorry "Jim" got a black eye in November, but if he is successful with Boone Way that will be glory enough to overcome all the disappointments in other ways.

But don't crowd old Cull out entirely, give him a show.

CROUP AND COUGH REMEDY

Croup is a terrible disease, it attacks children so suddenly they are very apt to choke until given the proper remedy at once. There is nothing better in the world than Dr. King's New Discovery. Lewis Chamberlain, of Muncie, Ohio, writes about his children: "Sometimes in severe attacks we were afraid they would die, but since we proved a what certain remedy Dr. King's New Discovery is, we have no fear. We rely on it for croup, coughs, and colds." So can you, too. A bottle should be in every home. At all Druggists H. E. Buckden & Co., Phil. St L.

Mrs. Wilson of Nashville, Tenn., is famed the world over for her wonderfully delicious cakes. They are shipped to all parts of the globe for special affairs where the best of Cakes are demanded.

This year, as in former years, Mrs. Wilson enjoys the distinction of making the President's Christmas Cake, using Calumet Baking Powder.

Mrs. Wilson's Baking Motto is: "To have complete success with no failures, care should be used in selection of Baking Powder."

CALUMET BAKING POWDER

Some little time ago I made a careful study and investigation of the baking powder subject and I feel fully repaid. I am firmly convinced from the results I have received that there is no baking powder to equal Calumet for wholesomeness and economy, and I also recommend Calumet Baking Powder for its never failing results.

Calumet also received the Highest Award at the World's Pure Food Exposition, Chicago and Paris, France, 1912.

Buy a can of Calumet Baking Powder at once, and use it in your Holiday Baking, making your Christmas Cakes as good as the President's.

you can most surely depend upon in time of trouble is your bank account. Better start to acquire a big one by depositing what you have in **The Bank of Mt. Vernon**. A few weeks ago we published a list of prizes offered the school children throughout the country, by the Woman's Club of Mt. Vernon. Having decided to make a slight change in the list it now consists of the following:

One man came all the way from Mayfield the other day "just to see Arlington," as he expressed it, "because he had heard so much about it." Let us continue to make noise enough that others will come and stay with us.—Arlington Courier.

Since the organization of our Commercial Club, Mt. Vernon is being much heard of and it is remarked that her people are "a live bunch."
